

## 18 Day Egg Chart

These charts give you an idea as to when eggs may hatch from the time the hen lays them.

### Budgerigar incubation calendar (common year)

January	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	January
	19	20	21	22	23	24	25	26	27	28	29	30	31						
February	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	February

	14	15	16	17	18	19	20	21	22	23	24	25	26		27	28	29	30	31

### How to use the table

Find the date the egg was laid on the table. 18 days from that date is the number directly below the laid date.

Example:

If an egg is laid on the 1<sup>st</sup> January it will be due to hatch on 19<sup>th</sup> January.

If an egg is laid on 17 September it will be due to hatch on the 5<sup>th</sup> October.

Note that sometimes they may hatch a little earlier or later so keep an eye on them.

For a leap year calendar check our resources link on the website.
